WHY ARE WE MEETING W DIRECTORS

- **Parents deserve** and require information about their child.
- **Information produces** better understanding.
- **Understanding produces** more thoughtful **decisions**.
- The **program is under stress** due to a reduction of numbers of players available intersecting timing of trying to accelerate transition into 11v11 play. Why are numbers lower? Injuries. Decisions.
- **Why 11v11 play?** It is **not necessary**. It **might be helpful**. A decision was required before the information we have tonight was available to the decision makers.
